

# AGIC Internet Mapping User Group Meeting

## *Presentations from Arizona GIS professionals & MoosePoint Technology*

Internet mapping application developers from Yavapai County, the City of Peoria, and the Town of Oro Valley will give live presentations and take questions.

Topics covered will be "Small Internet GIS Applications and Their Big Impacts" and "Creating A Highly Customized Intranet Application," that uses a combination of ArcIMS and Microsoft Active Server Pages.

MoosePoint Technology, the ESRI Partner of the Year for 2004, will be presenting a case study using ArcIMS and their GeoSmart.net product, which extends the functionality of ArcIMS.

ESRI will be available to answer questions concerning ArcIMS.

Thursday, September 23, 2004, 1-5 PM  
State of Arizona Dept of Administration Building  
100 N 15<sup>th</sup> Ave, Room 300  
Phoenix, Arizona
